STORAGE

Lateral Cabinets

File-IT offers a range of Lateral Storage options. Several cabinet types are manufactured in a variety of sizes.

Where security for files is paramount; the Flipper Door Cabinet is recommended.

Our Tambour Door Cabinet is ideal where the requirement is for a range of mixed media in the one lockable cabinet.

Stationery Cabinets & Lockers

Swing door stationery cabinets are 900mm wide and up to 1850mm high. Adjustable height shelves can accommodate a range of media, including lateral files.

Our range of personal lockers can be multiple heights, banked together and have clean design tops.

Code identifiers for file supports are :

FB-001 File Box available in A4; Foolscap in 127mm and 100mm widths.

TR - Toast Rack two styles Rear Support and TRW - Wrap around shelf style. Size to suit shelf width.

FS-FD File Divider for slotted shelves.

Roll Post Shelving

Adjustable height shelf modules are offered in a range of sizes. Systems can be designed to fit in almost any space. Options include mobilisation aids for optimum space use and *slotted shelves* for file support .

File-Box Storage System

The File-Box storage system uses a heavy duty powder coated steel frame. Vertical posts are L-shaped for a single sided unit and T-shaped for double sided units. Rails are used to connect the posts horizontally thus providing the only continuous unbroken lateral storage system. The plastic file boxes hang from these rails and are supported at a 5% angle for more efficient file recognition and retrieval.

File-Box has a number of advantages over conventional mobile or fixed frame shelving systems. The units are simple and quick to assemble and can be just as simply dismantled for easy relocation. Re-ordering files in the system is as easy as moving the boxes along the rails, making room for new files or taking up vacant space left after a system cull.

Colours

Cabinetry shells for all our storage products can be any Dulux Powder coat colour. Tambour doors are available in a limited colour range and all cabinet accessories are manufactured white in colour
